

## AMERICAN WINDSOR CHAIRS

AT LAST! Nancy Goyne Evans' long awaited publication, **American Windsor Chairs** is finally in print. Perhaps the most rigorously researched treatise in a single area of regional furniture, her work covers the American Windsor from its arrival in America from England in the 1730's, and follows its adaption and change through its many subsequent forms, into the nineteenth century. Copiously illustrated with more than 1,000 black and white illustrations and 25 colour plates, this book extends to 743 pages, (and weighs eight and a half pounds!)

Nancy Goyne Evans will give a Public Lecture at Buckinghamshire College on October 12th 1996. This is a rare opportunity for researchers and furniture people alike, and not to be missed. Application slips for this event are with the Events Sheets included with this Newsletter.

**American Windsor Chairs** ISBN 1-55595-112-0 is published by Hudson Hills Press Inc., Suite 1308, 230 Fifth Avenue, New York, NY10001-7704, price \$125 (Approx £85).
